

Buildium[®]
Property Managed.

5 PROPERTY OWNER BENEFITS

We are a **trusted partner** to help manage your properties efficiently and professionally. Here are just a few of the ways we provide **best-in-class property management services** to drive greater returns on assets.

Fewer Late Payments

Tenants can easily pay rent online, making it easier for us to pay you, too.

Better Tenants

All tenants are screened for credit, criminal, and eviction histories, so vacancies are filled quickly and safely. When there's a vacancy, we instantly advertise the unit to leading rental websites.

Streamlined Communication & Maintenance Requests

Properties are always well-cared for, because you and your tenants can easily log maintenance requests and engage in streamlined communication.

On-Demand Reports

Our property accounting reports are purpose-built. You can access them any time, from anywhere, for real-time property performance reports.

Organized & Professional Property Manager

We use industry-leading Buildium software to run a trusted and efficient business, providing greater visibility into your properties. So you're not only working with a professional, but with a company that has more time to focus on what's important to you.
